 - a. The Quote(s) at the Best Price, subject to satisfying the Order Limit Price, is (are) selected;
 - b. Should there be more than one Quote at the Best Price, then the matching occurs according to the time when the Quotes entered into the Market, with the earliest taking precedence;

If applying the above mentioned criteria the entire quantity of the Order is not fulfilled, then the next closest price to the Best Price is updated and the algorithm is repeated until the Order is fulfilled.

MTS Cash Domestic Market Rules

Effective as of 01 03 2019

2. The provisions contained in the preceding section are also to be applied for the conclusion of Trades by the matching of two Quotes.

4.6. Conclusion and registration of Trades

1. Trades are concluded either by an Order aggressing a Quote or by a Quote aggressing another Quote, according to procedures laid down in Article 4.5. The Trade shall be deemed to be concluded at the time when an electronic confirmation of the relevant matching is sent to either party to the Trade.
2. If Quotes and Orders matching on the Market are submitted by two CCP Participants using the CCP services on a CCP Financial Instrument, the execution of the Trade shall be automatic, subject to the registration of the Trade by the CCP, if the applicable CCP regulations provide that the novation of the relevant Trade shall take place upon the registration of the Trade by the CCP.
3. Subject to meeting the Minimum Quote Size requirement, a Quote that has been partially aggressed shall be considered an effective Quote for the residual portion, retaining the time priority originally assigned to it as provided in Article 4.5.
4. All the Trades concluded on the Market shall be registered by MTS in a special electronic file in which the data regarding the Trades executed on the Market are registered as soon as reasonably practicable. Each separate Trade shall have an identification number and shall include:

4.7. Mid-Price crossing

 - a. an appropriate level of market depth; and
 - b. a Bid-Ask Spread is available in a certain Financial Instrument.

MTS Cash Domestic Market Rules

Effective as of 01 03 2019

2. Mid-Price Orders will be subject to a Minimum Mid-Price Execution Size, which is set by MTS and set out in the Regulatory Specifications. The Minimum Mid-Price Execution Size is set to at least the same level of the relevant pre-trade Large in Scale threshold for those Financial Instruments that are defined as Liquid from time to time by ESMA. For Financial Instruments which are defined as Illiquid from time to time by ESMA, the Minimum Mid-Price Execution Size will be set out in the Regulatory Specifications.
3. Participants may enter Mid-Price Orders with a higher execution size than the Minimum Mid-Price Execution Size, but not of a lower size.
4. MTS will monitor all updates to ESMA Large in Scale thresholds and Liquidity status and update its Financial Instrument database accordingly.

4.8. Trade Registration facility

1. Participants shall not pre-agree transactions except in accordance with this section of the Rules. A bilaterally negotiated Trade is considered a Trade concluded on the Market, if the counterparties have agreed for such Trade to be concluded under these Rules and such Trade is also reported to, and accepted by, MTS. The acceptance of a Trade Registration is subject to a minimum trading size for each Trade Registration as defined and reported by MTS in the Regulatory Specifications. . The minimum trading size for each Trade Registration shall be defined at least equal to the threshold pre-trading of Large in Scale relevant for those Financial Instruments classified liquid from time to time by ESMA. For those Financial Instruments that are classified not liquid from time to time by ESMA, the minimum trading size for Trade Registration shall be defined by MTS and reported in the Regulatory Specifications.
2. This functionality allows two Participants to register bespoke trades on venue that are either:
 - a. "From Scratch", independently proposed and agreed directly by both Participants, usually over the phone, and then registered as a Trade on the Market; or
 - b. "From Best", as a bilateral negotiation tool allowing the sender to request a customisation (size and/or Price) of the best quote present in the order book. On receipt of a "From Best" Trade Registration request the Participant who owns the best quote has the choice to accept or reject the

MTS Cash Domestic Market Rules

Effective as of 01 03 2019

request or to counter bilaterally with different terms. Upon acceptance by both Participants a Trade is registered on the Market.

3. MTS will only consider information entered into the Market by Participants, and not any details discussed or agreed outside the Market.
4. It is recommended that a bilaterally negotiated Trade is reported by Participants to MTS within fifteen (15) minutes or the different timeframe that might be set by MTS from time to time. Participants that are party to a bilaterally negotiated Trade must record the time of the verbal or written agreement of the terms of the bilaterally negotiated Trade. This may be requested by MTS from time to time to evidence the timely submission of the bilaterally negotiated Trades.

4.9. Major Market Incident

1. For the purposes of these Rules, Major Market Incident ("MMI") means one of the following events taking place on the Market:
 - a) the improper functioning of the System so that all or a significant number of Participants is unable to trade in a secure manner without being exposed to material market risks (i.e., if they cannot determine their positions with certainty, may not submit Quotes, are unable to see the list of best Prices or see wrong Prices in the Best Page, or are unable to perform, in whole or in part, the market making activity);
 - b) the security or integrity of the System is compromised or subject to an imminent risk, or MTS is unable to see or control the Market using standard measures.
2. The occurrence of a MMI is identified by MTS. The duration of a MMI shall run from the time when the first impact on the system occurred and shall last until MTS determines that the normal conditions of the System have been restored. In the event of a MMI, MTS shall take the most appropriate measures, including the suspension of the Market or segments thereof.
3. MTS shall inform the Participants and the supervisory authorities in a timely manner of the occurrence of a MMI and shall specify the time of the commencement and end thereof

MTS Cash Domestic Market Rules

Effective as of 01 03 2019

4.10. Cancellation of Trades

1. Cancellation of erroneous Trades shall be carried out by MTS on the basis of a written request to be sent by email to MTS at cancellations@mtsmarkets.com prior to the closing of the Market or immediately afterwards. Participants shall make sure that only properly authorised employees send the relevant request to MTS and therefore MTS shall not be liable for actioning any non-authorised cancellation request.
2. Upon receipt of the communication MTS will promptly contact the counterparty to the relevant trade regarding the requested cancellation.
 - a) If the counterparty promptly confirms its agreement to such cancellation request, the request shall be treated as a bilateral cancellation request and shall be executed by MTS. A bilateral cancellation can be carried out up until the closing of the market or immediately thereafter.
 - b) In the event that the other counterparty does not respond promptly or does not agree with the Trade cancellation request, in order to proceed with the cancellation MTS will ascertain whether a unilateral cancellation can be performed. A unilateral cancellation procedure can only be started if the relevant cancellation request has been notified to MTS within 5 minutes from the execution of the relevant Trade.
 - c) In order to qualify for unilateral cancellation a Trade must be proved beyond doubt to deviate considerably from the Fair Market Value of the security in question at the time of execution.
 - d) Ascertaining Fair Market Value
 - i. MTS shall ascertain the Fair Market Value of the security in question by immediately requesting up to five (5), but in any case not less than three (3), firm two-way inter-dealer electronic quote for that instrument at the time of execution of the Trade.
 - ii. The five banks consulted are chosen from a pre-defined list and exclude either party of the disputed transaction (the "selected Participants").
 - iii. The Selected Participants shall respond as soon as possible by return email with their current Bid-Ask Spread, i.e. the two ways electronic "inter-dealer" quotes they input or would have input in any inter-dealer electronic market.
 - iv. MTS will discard the bid/offer couple containing the highest bid and the bid/offer couple containing the lowest offer and will calculate, truncating the result to the third decimal and then rounding up to

MTS Cash Domestic Market Rules

Effective as of 01 03 2019

the second one, the average of the remaining bid prices and the average of the remaining ask prices which will determine the Fair Market Values. In case there are multiple couples with the same bid or the same offer, the couple with the tighter Bid-Ask Spread will be deleted: if this spread is expressed by more than one couple, only one will be eliminated. In case the highest bid and the lowest offer are contained in the same couple, only this couple will be deleted.

v. Once Fair Market Values are ascertained, MTS will calculate the relevant spread (average Bid-Ask Spread).

e) The Trade price in question will be considered to deviate from the Fair Market Value if it is more than 50% wider than the average Bid-Ask Spread which was calculated.

More in details:

Error sale (*i.e.* cancellation request is made by the seller):

The transaction will be cancelled when the trade price is lower than the bid Fair Market Value by more than 50% of the above defined spread at the time of the execution of the trade.

Error purchase (*i.e.* cancellation request is made by the buyer)

The transaction will be cancelled when the trade price is higher than the ask Fair Market Value by more than 50% of the above defined spread at the time of the execution of the trade.

Example:

Italian BTP 4.750 1 February 2013

The following Best bid-offer prices were on the best page – 107.15/110.25

Seller aggresses bid at 107.15 and then reports it as an error Trade (being an error sale).

Following a poll of five market participants, the five quotes are as follows:

- 108.60/109.60
- 108.50/109.65
- 107.90/109.50
- 108.25/109.30
- 108.30/109.20

The couple with the highest bid and the couple with the lowest offer are thrown out which leaves the following:

108.50/109.65

MTS Cash Domestic Market Rules

Effective as of 01 03 2019

107.90/109.50

108.25/109.30

The average bid price and the average offer price are calculated taking into account the three remaining bid and offer prices. The result is truncated to the third decimal and rounded to the second decimal:

Avg Bid= $(108.50 + 107.90 + 108.25)/3 \Rightarrow 108.22$ truncated to the 3rd and rounded up to the 2nd decimal which determines the bid Fair Market Value

Avg Offer = $(109.65 + 109.50 + 109.30)/3 \Rightarrow 109.48$ truncated to the 3rd and rounded up to the 2nd decimal which determines the offer Fair Market Value

Therefore the remaining values are:

108.22/109.48 that brings to an average Bid-Ask Spread of 126 cts

The following bid and offer limits are obtained by applying the 50% deviation margin to the average bid/offer spread (126 cts): 107.59/110.11

The sale executed at 107.15 will be cancelled as the low parameter is 107.59 i.e. all sales < 107.59 may be cancelled should that be requested by the seller in the present example.

- f) If after following the above procedure, the reported Trade in question is proven to be off the Fair Market Value based on the criteria listed above, MTS performs the unilateral cancellation of the Trade in question in order to maintain a fair and orderly Market and avoid the unfair penalisation of members for genuine errors.
- g) MTS will inform the counterparties to the Trade in question via telephone (with confirmation via e-mail) of its decision regarding the cancellation request within 35 minutes from the time of conclusion of the erroneous Trade.
- h) MTS is entitled to reveal the identities in order to resolve the Trade dispute, if deemed useful to resolve the Trade dispute.
- i) In exceptional circumstances, to be determined by MTS, and upon a written request, sent via email to MTS by both counterparties to the relevant Trade, in case a Trade has been executed at Price not in line with the current market value, MTS can proceed to amend the Price of the relevant Trade.

MTS Cash Domestic Market Rules

Effective as of 01 03 2019

3. In the event of a Major Market Incident (MMI), MTS shall cancel the Trades affected by such MMI. In connection with such cancellation, MTS shall also be entitled to take into account Trades entered into outside of the MMI period but affected by the Market malfunctioning; and shall also be entitled to determine that Trades entered into during the MMI period have remained unaffected by such MMI. MTS may at its discretion consult the Participants whose Trades have been or may be affected by a MMI.

The parties of the Trades subject to cancellation shall be notified within the close of the trading day, unless force majeure prevents such notification.

4. MTS shall on its initiative cancel Trades or correct data transmitted in accordance with the Rules relating to Financial Instruments whose issuance has been announced by the issuer and which have not been issued or where the volume of the issuance is significantly lower than announced

4.11. Market Making Agreements

1. Only Market Makers are subject to this Section of the Rules which constitutes the market making agreement between each Market Maker and MTS. For the avoidance of doubt, a Participant is not allowed to pursue a Market Making Strategy on Financial Instruments belonging to an Instrument Class where it is not classified as a Market Maker.

Additionally and for each Instrument Class, MTS will determine a minimum number of Financial Instruments on which Participants will be expected to perform a Market Making Strategy and therefore comply with Market Making Commitments. MTS will define the aforementioned minimum number of Financial Instruments in the Regulatory Specifications. If the Market Maker has pursued a Market Making Strategy on any Financial Instrument within the Instrument Class it has to comply with the Market Making Commitments described on point a.,b, c, above.

The performance of a Market Maker will be measured at the end of each month, on the basis of the daily performance on each Financial Instrument on which he has performed a Market Making Strategy. The monthly compliance with the Market Making Commitments will then be calculated on every single Financial Instruments on which it has performed a Market Making Strategy within the same Instrument Class and therefore evaluated on an Instrument Class basis

5. Market Makers will be exempted from their Market Making Commitments in the event of exceptional circumstances as defined in Article 3 of the Commission Delegated Regulation (EU) 2017/578 of 13 June 2016 supplementing Directive 2014/65/EU of the European Parliament and of the Council on markets in financial instruments with regard to regulatory technical standards specifying the requirements on Market Making Agreements and scheme. Without limitation to the generality of the foregoing, exceptional circumstances are: excess volatility, war, industrial action, civil unrest, cyber sabotage, technological issues on the venue or the Market Maker, risk management issues and short selling bans. In case of an exceptional circumstance, and the subsequent resumption of trading, MTS shall endeavour to inform the public via its website. The Market Maker is not under the obligation to comply with the Market Making Commitments provided herein in those days which are bank holidays in the country where the Market Maker carries out its business. 7. Should MTS decide to offer a Market Making Scheme (as it is defined by the applicable Italian legislation), it shall publish in the Regulatory Specifications the terms of the Market Making Scheme, the names of the Market Makers benefitting from such Schemes and the Financial Instruments or Instruments Classes covered by the relevant Scheme. Market Making Scheme has the meaning provided in the Applicable Laws.
8. When a Market Maker is in breach of the Market Making Commitment for three (3) consecutive months, MTS reserves the right to issue such Market Maker with a written notice of the breach asking for strict compliance with the Market Making Agreement and an explanation of the reasons behind the breach. Following receipt of the above notification, where the Market Maker in question fails to honour its Quoting Commitments for three (3) additional consecutive months, MTS shall have the right a) to delete the Market Maker from the list of Market Makers and/or b) to initiate the disciplinary procedure as per Section 7 here below. Any Participant so cancelled from the list of Market Makers shall be allowed to trade on the Market as either Liquidity Provider or Price Taker, if existing in the specific Segment and unless specified different in the relevant Annex.
